

The anniversary of the birth of Maria Antonia Paris is an opportunity to thank God for her life. In this consecrated woman of XIX century God has manifested his love leaving us an example of the courage, prophetic wisdom together with the simple everyday fidelity to His Will.

Humbly surprised by his call she put all her existence at the service of the Gospel and renewal of the Church. Her passion to announce the Gospel to all the creatures is inspiring not only the claretian family.

Today, together with her we pray for the mission of the Church she loved so much, and with her we renew the intercession she used "to do for many years asking God" to send new apostolic missionaries following Jesus announcing his Good News.
