

Formators' workshop on manual for formation August 24-sept 3

Since last 24th till 3th of September the East Asia Formators team (Marissa, Marita, Melania, Bernadeta, Selfia and Anastasia) together with the general prefect of formation Jolanta Kafka had their workshop for the project-manual of the formation for East Asia province. Sr Jolanta at the beginning days she gave the formators some inputs based on the materials elaborated by general Team on Formation on December 2015 in Rome. Indeed very helpful for the formators to enlighten, reflect, and share their own experience in the mission of formation. Each day was begun with prayer guided by Jolanta on key words for formators: listen, complacency, be born again and other attitudes in formation process. I helped to start afresh the workshop each day with more inspiration and inner joy. It was possible to elaborate a big part of the task yet still we should complete it. The sisters express heartfelt gratitude to Jolanta for helping the formators and to the beloved Province for all the provisions both materially and spiritually to pursue this dream; to all the formators thanks for the dedication for this mission.
