

REUS - The celebration of the inauguration took place first within the thanksgiving Mass presided by Fr Ricard Costa, Provincial superior of Claretian Missionaries of Catalonia. We were gathered sisters from different communities, collaborators, and even relatives of María Antonia from Tarragona. In the second part the Superior General Maria Soledad and representative of the City Council Dolors Sarda, addressed all with meaningful messages, stressing on the actuality of the life of Paris and the relevant aspects of her witness bringing them to our days.

The Museum wants to be a place of encounter with this woman fully dedicated to God and missionary service for others. Walking in faith and evangelical values, she shows us the way and invites us to walk together helping each other in reaching horizons of goodness and justice.

We ask her to intercede for us, especially when our paths of life, mission and hopes are darkened.
